

Experience in Latin America and the Caribbean

RTI International has provided consulting services, technical assistance, training, and applied research in Latin America and the Caribbean (LAC) since the mid-1980s. RTI helps governments, the private sector, and target communities solve complex development challenges by applying its expertise in the fields of democratic governance, municipal finance, and service delivery; education, health, and environmental management; and information and communication technology, monitoring and evaluation, and public-private partnerships. RTI maintains a regional office in San Salvador, El Salvador, which supports a variety of project activities throughout the region. RTI's clients in LAC include the U.S. Agency for International Development (USAID), the World Bank, the Inter-American Development Bank (IDB), other regional and international public- and private-sector organizations, and foundations. Selected experience includes the following projects:
