

Experience in Latin America and the Caribbean

RTI International has provided consulting services, technical assistance, training, and applied research in Latin America and the Caribbean (LAC) since the mid-1980s. RTI helps governments and local partners solve complex development challenges by applying its expertise in the fields of governance and stabilization, economic growth, education, health, environmental management, information and communication technology, and public-private partnerships.

RTI maintains a regional office in San Salvador, El Salvador, which supports a variety of project activities throughout the region. RTI's clients include the U.S. Agency for International Development (USAID), the Inter-American Development Bank (IDB), the World Bank, other regional and international public- and private-sector organizations, and foundations. Selected experience in the last five years includes the following projects:
