

Experience in Africa

RTI International has been working in Africa for more than 40 years, providing technical assistance, institutional strengthening, program support, and research for clients such as the U.S. Agency for International Development (USAID), the World Bank, the U.S. National Institutes of Health (NIH), the U.S. Department of Defense (DoD), the U.S. Environmental Protection Agency (EPA), the U.K. Department of International Development (DfID), public- and private-sector organizations, businesses and foundations, as well as host country governments.

Expertise throughout Africa covers the fields of conflict management, mitigation, and reconstruction; governance and economic growth; education; environmental management; health; and information and communication technology. RTI maintains a corporate office in Pretoria, South Africa, which supports regional business development. The following projects are examples of some of RTI's recent work in sub-Saharan Africa.
