

Experience in India

Since 1982, RTI International has supported improvements in health, water and sanitation, energy, and the environment in India. To better serve our clients and increase linkages with local partners and organizations, RTI is working to establish a permanent presence in the country. Our clients include the World Bank, the U.S. Agency for International Development (USAID), the U.S. National Institute of Child Health & Human Development (NICHD), the Bill and Melinda Gates Foundation, and other U.S. and international agencies and organizations. RTI's projects and programs in India emphasize collaborative applied research, institutional development through the transfer of analytical tools and methods, and the dissemination of best practices. Project examples include the following:

Empowering Daughters- and Mothers-in-Law to Mitigate Gender-Based Violence and Promote Women's Health in India, NICHD (2010–2012)

Integration of Multi-Level Behavioral Biological and Economic Informatics for HIV Research, NICHD (2008–2012)
