

Logical Framework

I . Monitoring and Evaluation Plan – indicators

- Number of retired midwives trained in Enhanced Usapan
- Number of Enhanced Usapan training conducted
- Total number of Enhanced Usapan facilitators disaggregated by location
- Number of women and men invited to the Usapan sessions
- Number of Enhanced Usapan sessions conducted
- Total number of participants attended the session
- Total number of participants counseled by health service provider
- Total number of clients served with FP method
- Total number of clients referred to health facilities
- Number of ReachHealth-developed materials distributed
- Number of quality supervision and field monitoring sessions conducted
- Number of project meetings conducted
- Number of sustainability workshops conducted
- Number of LGUs conducted with sustainability workshops
- Number of LGU-specific plans developed

II. LOGICAL FRAME MATRIX

	Deliverable	Objectively Verifiable Indicators	Target	Means of Verification	Risks / Assumptions
Goal / Impact					
Outcomes					
Output					
Activities					

LOGICAL FRAMEWORK MATRIX

DELIVERABLE/ NARRATIVE SUMMARY	OBJECTIVELY VERIFIABLE INDICATORS (OVI)	MEANS OF VERIFICATION (MOV)	RISKS / ASSUMPTIONS
GOAL	Measures of goal achievement	Various sources of information; methods used	Assumptions affecting purpose-goal linkage
OUTCOMES/ PROJECT PURPOSE	End of Project Status	Various sources of information; methods used	Assumptions affecting output- purpose Linkage
OUTPUTS	Magnitudes of outputs; planned dates of completion	Various sources of information; methods used	Assumptions affecting inputs-outputs linkage
ACTIVITIES	Types/levels of resources; starting date	Sources of information	Initial assumptions about the project

LOGICAL FRAMEWORK MATRIX

DELIVERABLE/ NARRATIVE SUMMARY	OBJECTIVELY VERIFIABLE INDICATORS (OVI)	MEANS OF VERIFICATION (MOV)	RISKS / ASSUMPTIONS
GOAL	Measures of goal achievement	Various sources of information; methods used	Assumptions affecting purpose-goal linkage
OUTCOMES/ PROJECT PURPOSE	End of Project Status	Various sources of information; methods used	Assumptions affecting output- purpose Linkage
OUTPUTS	Magnitudes of outputs; planned dates of completion	Various sources of information; methods used	Assumptions affecting inputs-outputs linkage
ACTIVITIES	Types/levels of resources; starting date	Sources of information	Initial assumptions about the project

DELIVERABLE/NARRATIVE SUMMARY

GOAL	<ul style="list-style-type: none">• Describes the developmental benefits which the respective target groups can expect to gain from the program or the project• It covers kind of benefits which are expected to accrue to the target groups and by what type of capabilities they should be enabled to keep up or improve their conditions in changing economic, social and institutional environment
OUTCOMES/ PROJECT PURPOSE	<ul style="list-style-type: none">• Describes the changes in behavior, structures or capacity of the target groups which directly result from the utilization of the deliverable outputs or results the program or project will be expected to yield• It includes aspects like a changed type/method of resource utilization; an improved system of production/organization which allows the target groups to participate in the project/ program, and which is adjusted to their economic, social, ecological and institutional frame conditions
OUTPUTS	<ul style="list-style-type: none">• Describe the goods and services, the direct deliverables which are contributed from the side of a project or program.• Outputs must express the nature, scope and intensity of support or of the solution being sought. This includes: (1)provision of information on support/solution; (2)access to support / solution by specific target-groups, including gender aspects; and (3)availability of support / solution
ACTIVITIES/ INPUTS	<ul style="list-style-type: none">• Measures/tasks carried out by the project/program in order to achieve and obtain the outputs/results (actions)

OBJECTIVELY VERIFIABLE INDICATORS (OVI)

- For each cell of the narrative summary, indicators need to be developed.
- Objectively verifiable indicators or OVI should meet the following criteria:
 - ✓ **Measurable:** An indicator must be able to be measured in either quantitative or qualitative terms
 - ✓ **Feasible:** An indicator should be feasible in terms of finances, equipment, skills and time
 - ✓ **Relevant and Accurate:** An indicator should reflect what we are trying to measure in an accurate way
 - ✓ **Sensitive:** An indicator should be capable of picking up changes over the time period that we are interested in
 - ✓ **Timely:** An indicator should be able to provide information in a timely manner.
- Indicators should show who is benefiting from the project and allow for evaluation of the intended and unintended impacts of the project on various social groups and stakeholders. This requires the collection of information separately for various groups of interest (ex., by sex, age-group, etc.)

MEANS OF VERIFICATION (MOV)

- **Means of verification indicate:**
 - 1) How to acquire evidence that the objectives have been met**
 - 2) Where to find proof, which will provide the data/information, required for each indicator**
- **An MOV should test whether or not an indicator can be realistically measured at a reasonable amount of time, money and effort.**

ASSUMPTIONS

The aims of specifying assumptions are:

- 1) to assess the potential risks to the project concept right from the initial stages of project planning**
- 2) To support the monitoring of risks during the implementation of the project; and**
- 3) To provide a firm basis for necessary adjustments within the project whenever it should be required.**
