International Development

Improving lives in developing countries around the world
RTI’s international development team is dedicated to improving lives in developing countries around the world.

We combine the research expertise of a university, the innovation and implementation capabilities of a private enterprise, and the mission focus of a non-profit. This unique and powerful approach allows us to design and implement programs that are informed by strong evidence and deliver measurable outcomes.
Increasing access to clean, affordable energy

Supporting systemic change to improve learning outcomes

Education

- Teaching and learning
- Monitoring, evaluation, and research
- Technologies

Achieving the future we hope for in the developing world is possible through hard work, persistence, and applying the right science and knowledge. We are committed to providing the technical expertise, knowledge, and on-the-ground capabilities needed to design and implement programs for lasting success.
RTI International is an independent, nonprofit research institute dedicated to improving the human condition. Clients rely on us to answer questions that demand an objective and multidisciplinary approach—one that integrates expertise across the social and laboratory sciences, engineering, and international development. We believe in the promise of science, and we are inspired every day to deliver on that promise for the good of people, communities, and businesses around the world.
