Integrated Learning Solutions

Developing and delivering customized, state-of-the-art technical and leadership training

RTI International offers award-winning learning solutions for professionals worldwide. Our customized solutions bridge the gap between knowledge acquisition and actionable learning. The solutions are grounded in adult learning principles—incorporating participatory methodologies, innovation, and technologies. Our experience spans across technical sectors and geographic regions, enabling us to develop and deliver tailored learning solutions.

We design and deliver competency-based curricula that blend facilitator-led sessions, e-learning, experiential learning, actionable learning, performance support tools, and knowledge management. Our clients enhance their capabilities and leadership, increasing their performance in the management of international development and foreign assistance programs. After participating in our comprehensive suite of learning solution programs, our clients are prepared to deliver results that lead to sustainable impact worldwide.
