

# International Development

*Improving lives in developing countries  
around the world*

RTI's international development team is dedicated to improving lives in developing countries around the world.

We combine the research expertise of a university, the innovation and implementation capabilities of a private enterprise, and the mission focus of a non-profit. This unique and powerful approach allows us to design and implement programs that are informed by strong evidence and deliver measurable outcomes.

## Education

## Energy

*Supporting systemic change to improve learning outcomes*

Teaching and learning

Monitoring, evaluation, and research

Technologies

Policy, systems, and governance

*Increasing access to clean, affordable energy*

Utility management

Energy-sector reform

# delivering **the promise of science** for global good

RTI International is an independent, nonprofit research institute dedicated to improving the human condition. Clients rely on us to answer questions that demand an objective and multidisciplinary approach—one that integrates expertise across the social and laboratory sciences, engineering, and international development. We believe in the promise of science, and we are inspired every day to deliver on that promise for the good of people, communities, and businesses around the world.
