

# FEED THE FUTURE

The U.S. Government's Global Hunger & Food Security Initiative

## Feed the Future Liberia Food Security, Nutrition, and Resilience activity

### Annual Program Statement (APS)

#### **Call for Concept Papers to support activities to improve production, post-harvest processing, storage, and provision of small irrigation systems in selected counties in Liberia.**

Feed the Future Liberia Food Security, Nutrition, and Resilience activity is a 5-year project with the overall goal to increase agriculture-led economic growth through improved production and productivity to enhance food and income security as well as improve nutritional well-being among targeted communities. The activity was awarded to RTI International in partnership with BRAC, Dimagi, and GiveDirectly. FSNR is designed to increase rural economic development and food security in Liberia through: (1) strengthening agricultural practices and capacity for on-farm processing among targeted groups; (2) diversifying livelihoods and increasing incomes through access to finance, assets, and agricultural equipment; and (3) improving market access and year-round availability of nutritious foods among targeted communities and households.

The overall purpose of the activity's "Resilience Investment Fund" (RIF) is to support eligible cooperatives as well as Small and Medium Enterprises (SMEs) in improving production and post-harvest food processing and storage, along with small-scale irrigation infrastructure in Montserrado, Margibi, Bong, Nimba, Grand Bassa and Lofa. Through the RIF, the cooperatives will progressively take on responsibility to sustainably provide services to their members.

FNSR has identified categories of nutritious foods with potential for increased demand and supply. FSNR has consulted with the Ministry of Agriculture and other stakeholders on prioritizing the selected nutritious foods to determine the value chains FSNR will promote over the life of the activity. The selected foods are locally produced and consumed in the country and were selected based on their nutrient values. Grants funded in this round will focus on the production, processing, and marketing of cowpeas, maize, poultry (meat and eggs), orange-fleshed sweet potatoes, peanuts, production and/or processing of poultry feeds, and vegetables (cabbage, cucumber, and okra).

Final funding levels will depend on number and quality of viable applications received, availability of funding, suitability of the application in line with scope of FSNR activity and USAID priorities. Grants will be awarded competitively in amounts commensurate with their impact but shall not exceed the maximum amount of USD 100,000 and within an implementation period of 12 -24 months from date of award.

KINDLY REQUEST FULL DOCUMENT FROM [grants@liberia-fsnr.org](mailto:grants@liberia-fsnr.org)

DEADLINE FOR SUBMISSION IS October 25, 2024

Title	Resilient Investment Fund– Annual Program Statement (APS)
APS No	APS-FSNR-2024-002 <i>[This is a call for a Concept Note. Only those selected from this initial stage will be required to submit the full application]</i>
To download the Concept, Note Application form	Concept Note Template is posted at: <a href="http://www.rti.org/rfp">www.rti.org/rfp</a> The Concept Note can also be requested at <a href="mailto:grants@liberia-fsnr.org">grants@liberia-fsnr.org</a>
Any questions please email	<a href="mailto:grants@liberia-fsnr.org">grants@liberia-fsnr.org</a>
Submit Concept Note to	<a href="mailto:grants@liberia-fsnr.org">grants@liberia-fsnr.org</a> The concept note should not exceed five pages (including a summary budget) [The concept note marks the initial stage in this process. Following the initial evaluation, those who are successful will be guided to complete the full application package through a co-creation process]
Date of Issue	October 8, 2024
Deadline to Submit Questions	October 18, 2024
Response to Questions published	Responses to questions will be published at <a href="http://www.rti.org/rfp">www.rti.org/rfp</a> on the dates indicated below. October 20, 2024
Closing Date for Applications	Liberia FSNR will accept APS Applications as follows. October 25, 2024
Eligible Activities	Under this APS, Liberia FSNR seeks to support activities focused on production or expansion of production capacity, food processing, and marketing of rice, cowpeas, poultry (meat and eggs), orange-fleshed sweet potatoes, Cassava, peanuts, poultry feeds, and vegetables (cabbage, cucumber, and okra). Extra consideration will be made for concepts that expand employment opportunities for women and youth. Agro-processors that plans to expand their production capacity with definite resultant effect of increasing employment opportunities for youth and women may also be supported.  Support may be tailored to include grants for technical assistance, organic waste management and compost development for vegetable production, machinery, and training for enterprises who have identified a market opportunity that can be met through increased access to the productive resources.  The grant will not support construction related undertakings but encourages grantees to use construction as Co-investment.  We encourage proposals from women and youth’s cooperatives or SMEs whose activities align with FSNR intervention to apply.
Eligible Applicants	This call is limited to established cooperatives as well as Small and Medium Enterprise (SMEs). All applicants should:

	<ul style="list-style-type: none"> <li>● Be legally and formally registered and functioning at the time of grant application; consideration may also be given to entities that are fully functional but still in the process formalizing their status with the regulatory body such as CDA. of.</li> <li>● Be compliant to government of Liberia regulations (submit tax compliance certificate, registration certificate).</li> <li>● The activities under the grants must primarily take place in Liberia.</li> <li>● Individuals are not eligible to apply for this APS.</li> </ul> <p>Concept notes from organizations that do not meet the above eligibility criteria will neither be reviewed nor evaluated.</p>
<b>Application Process</b>	<p>To apply, complete the attached application package.</p> <p>Below is an overview of the application and selection process.</p> <ul style="list-style-type: none"> <li>● Step 1: Interested applicants shall review APS and associated requirements.</li> <li>● Step 2: Interested applicants can submit questions regarding this APS, the process or activity before the stated deadline.</li> <li>● Step 3: Eligible applicants shall submit <b>concept notes using the APS application package</b>. The concept note shall not exceed five A4 size normal pages (font size 12’).</li> <li>● Step 4: Liberia FSNR review committee evaluates concept note applications for each round based on standard criteria.</li> <li>● Step 5: Successful applicants will be invited to submit a full application package in response to a request for applications (RFA) as part of a co-creation process with developed and refined concepts, program descriptions and budgets. The accompaniment to develop the full proposal with a budget and MEL plan may take <u>up to three months</u>, from the selection of the concept note.</li> <li>● Step 6: The resilience capacity assessment shall be conducted to identify areas that require capacity strengthening.</li> <li>● Step 7: Concept Notes are reviewed, evaluated including Risk Assessment and Environment Impact Assessment and scored.</li> <li>● Step 8: Awards are made to successful applicants.</li> </ul>
<b>Selection Criteria</b>	Factors to be evaluated when reviewing concepts are detailed in <b>Section III: APS Review</b> .
<b>Co-Investment</b>	Co-Investment is required under this APS. See <b>Section II: Co-Investment</b> .
<b>Questions &amp; Answers</b>	Q&A stage will be conducted to gather more information from the shortlisted applicants. We will respond to the questions collectively, addressing them in a consolidated manner rather than individual responses to each applicant.

**APS Application Package [for Concept note]**

The Application Package includes:

Section I.	Illustrative Partnership Activities
Section II.	Co-Investment
Section III.	APS Selection Criteria / Technical Evaluation
Section IV.	Application and Submission Information
Section V.	Types of Awards
Section VI.	Unique Entity Identifier (UEI)
Annex A.	APS Application Form
Annex B.	Liberia FSNR priority counties

This is an open application process with selection made in two rounds. Please take note that applications will be reviewed on an ongoing basis, and only shortlisted concepts will receive notifications. All questions and APS Application Forms must be submitted to [grants@liberia-fsnr.org](mailto:grants@liberia-fsnr.org)

## Section I. Illustrative Partnership Activities

The Feed the Future Liberia FNSR activity will consider activities that directly contribute to the achievement of the activity’s goal to increase agriculture-led economic growth through improved productivity to enhance food security and nutrition, specifically for the following foods: rice, maize, cowpeas, poultry (meat and eggs), orange-fleshed sweet potatoes (OFSP), Cassava, peanuts, avocado, moringa, pawpaw/papaya, and vegetables (cabbage, cucumber, and okra).

FSNR seeks concept notes for grant funds to provide established cooperatives, and Small and Medium Enterprise (SMEs) support for the following illustrative activities:

- Promotion of small and medium scale poultry farming (for eggs and/or poultry);
- Collaborate with local small and medium enterprises or poultry farmers to scale up production of poultry (for eggs and/or poultry);
- Promote production, processing, and consumption of nutritious foods in rural communities and peri urban areas.
- Innovative technologies to improve production, processing, storage and marketing of vegetables and fruits ,including okra, pepper, etc.
- Commercial production of orange flesh sweet potatoes to improve the availability and consumption of orange flesh sweet potatoes
- Increase production, processing, and consumption of groundnuts.
- Reduce post-harvest losses of nutritious and staple foods
- Recycling of organic waste and technologies that contribute towards reduction of carbon emission
- Enhance the marketing of nutritious and staple foods

Through the Resilience Investment Fund (RIF), the FSNR activity seeks to not only support groups with access to inputs, equipment, and technologies to improve production, enhance productivity and diversify processing of nutritious and staple value chains , but also reinforces the Sustainable Farmer Group Approach by strengthening resilience of farmer groups, women’s groups, youth groups, and cooperatives to gradually take on greater responsibility for procuring goods and services to support their members.

Like all capacity-building initiatives, the grant awards will be contingent upon the recipient's existing capacity. Moreover, the possibility of receiving additional awards hinges on the successful execution of previous grant allocations.

Applications can include more than one of the above-mentioned activities.

RTI and its partners will play a facilitative and coordination role in implementing the activity through private sector firms, cooperatives, and village savings, and microfinance institutions. In playing the facilitative and

coordination roles, RTI may collaborate with other agencies depending on feasibility of anticipated level of synergies with implementing agencies to provide support to the eligible cooperatives and SMEs.

**Please note that Liberia FSNR grant funds will not be used to support any of the following:**

- i. Construction costs **purposes** except for installation of irrigation facilities or any low-cost appropriate technology used for irrigation. Irrigation facilities may be solar-powered or include a small battery-operated pump.
- ii. Vehicles including cars, motorbikes, trucks, tractors.
- iii. Salary for the cooperative members or business owners
- iv. Purchase of chemical fertilizer, pesticides and or any environmentally harmful products.
- v. Purchase of secondhand goods or used machinery. New agricultural machinery and equipment are eligible for funding.
- vi. Any activity that is considered illegal according to the laws of Liberia

**Section II. Co-investment**

Co-investment is required under this APS at a minimum of 1:1 match in private funding. Priority will be given to applicants that can provide a co-investment to their requested budget. Applicant’s contributions can be in the form of cash (such as private capital or loans), infrastructure, property, equipment, new and existing staff working on the requested grant activities, and others directly used for the proposed activity. Standard operational costs will not be considered as part of the contribution.

The Resilient Investment Fund (RIF) intends to leverage group co-investment in all the proposed activities, with 50% co-investment requirement for support towards the rehabilitation of irrigation facilities and/or procurement of new low-cost appropriate irrigation technology, including solar irrigation pumps with all its required accessories.

The applicant can propose mobilization of additional financial resources, such as equity or debt that will come from other sources including, formal financial institutions such as commercial banks, individuals, other companies, funds, and foundations, and bilateral or multilateral organizations.

These co-investments are uniquely secured and cannot be sourced from the funding of other donors. They represent a dedicated commitment to our specific initiatives and objectives, ensuring that the resources and support required for our projects are distinct and independent, further reinforcing our determination to achieve our goals.

A detailed budget is not required for the concept note stage of this APS. However, applicants are required to provide a summary of the total activity budget showing the amount of co-investment contribution from the applicant and the amount of grant funding requested from RTI. Successfully evaluated concept notes, if invited to respond to the Request for Applications (RFA), will be required to submit a detailed budget and narrative.

**Section III. APS Selection Criteria**

The Selection Committee (SC) will review the concept notes submitted by the applicant using the selection criteria below:

	Criteria	Points
1.	<b>TECHNICAL UNDERSTANDING AND APPROACH:</b>	<b>40</b>

	<p>Application demonstrates how partnership with FSNR will result in improvement in production (including through expansion on irrigation), storage and processing, market access for the members and/ or employment opportunities for women and youth and/or entrepreneurial opportunities.</p> <p>A. Problem identification and statement - Applicant ably identifies the existing gaps / problem in the agricultural value chain. (5 pts)</p> <p>B. Proposed activities are aligned with the priorities of the APS. (5 Points)</p> <p>C. To what extent does the concept address the challenge of food security and nutrition or marketing or processing of agricultural produce? (10 pts)</p> <p>D. The extent to which the concept adopts Climate-Smart Approaches ( CSA) with a focus on improving productivity with limited inputs and enhancing resilience to climate-related shocks through climate change adaptation. (10 pts)</p> <p>E. Demonstrates how proposed activities are linked to existing agriculture value chains, enhances business partnerships, demonstrates enhanced collaboration with tangible and achievable results. (10 pts)</p> <p>Below are the value chain of preference to the FSNR</p> <ol style="list-style-type: none"> <li>1. Cereals, (Rice &amp; Maize for trials)</li> <li>2. Vegetables (Okra, Cabbage)</li> <li>3. Legumes (Cowpea and Groundnut)</li> <li>4. Tuber Crops (Cassava &amp; Orange Fleshed Sweet Potatoes),</li> <li>5. Tree crop (Moringa, Papaya, Avocado, Cocoa, Oil palm, Rubber)</li> <li>6. Livestock (poultry).</li> </ol>	
<b>2.</b>	<p><b>Creativity, Innovation and Technology driven:</b> The extent to which the concepts are innovative, smart, and technologically driven.</p> <p>A. Concepts demonstrate use of creative ideas and innovation with highest likelihood of impact on socio economic dimension of a household. (2.5 pts)</p> <p>B. The extent to which the business can be replicated and scaled. (2.5 pts)</p> <p>C. Concepts incorporate proven innovative technology approaches. (2.5 pts)</p> <p>D. Concept clearly shows progressive change and a growth trajectory. (2.5pts)</p>	<b>10</b>
<b>3.</b>	<p><b>Environmental impact:</b> The extent to which applicants clearly identify any potential environmental impacts due to proposed activities and includes proposed mitigation measures. (10 pts)</p>	<b>10</b>
<b>4.</b>	<p><b>Inclusivity / Employment opportunity:</b> The extent to which the proposed concept considers the impact and opportunities for women and youth, and particularly ensures effective integration of women and youth. (15 pts)</p>	<b>15</b>
<b>6.</b>	<p><b>Co-Investment:</b> Minimum of 1:1 match contribution from applicant's own funds, commercial loans and new assets. The reasonableness of proposed co-investment (considering the type of interventions being proposed. Concept details clearly stating the source of the co-investment. (15 pts)</p>	<b>15</b>
<b>7.</b>	<p><b>Past performance:</b> Applicant has a proven track record demonstrated by previous work and experience, both technically and geographically. (10 pts)</p>	<b>10</b>
	<b>Total Possible Points</b>	<b>100</b>

**Only Shortlisted applicants will be contacted to continue to the next step of the application process.**

#### **Section IV. Application and Submission Information**

All concept notes must be submitted in English and should not be more than 5 pages. The 5 pages limit excludes Section I: Overview of the concept note Applicants must adhere to the guidance provided in Annex

A, below. The application and any supporting documentation should be submitted in electronic form to: [grants@liberia-fsnr.org](mailto:grants@liberia-fsnr.org)  
[Hard copy submissions can be delivered to any of the physical addresses shown in annex B below.](#)

**Subject Line: APS-FSNR-2024-001**

Submission should include:

**APS Application Form (See Annex A, below)** with the following sections completed.

- 1) Section 1: Basic Information / Profile and Basic Background Information of Applicant
- 2) Section 2: Technical Approach (**Maximum 5 pages**)
- 3) Section 3: Required—Certification

This is a rolling process with evaluations and selections made over two rounds. As resources are limited, applicants are encouraged to respond quickly. Based on applications, the first round of evaluations is anticipated after October 7, 2024. The second round of evaluation will occur after October 31, 2024.

**Section V. Type of Awards**

Grants awarded under this APS will primarily be Fixed Amount Award grants (FAA) or hybrid FAA that includes FAA and in-kind grant

Under FAA grants, RTI will make payments based on submission and acceptance of specific verifiable milestones. Once an award is issued, it will include a fixed price payment schedule with milestones and deliverables negotiated during the final application and award process.

**Section VI. Unique Entity Identifier (UEI):**

Beginning April 4, 2022, the Unique Entity ID (UEI) from SAM.gov is the authoritative identifier for those doing business with the US Federal government. The Unique Entity ID is generated in SAM.gov ([www.sam.gov](http://www.sam.gov)).

Whereas applicants can submit their Concepts applications without the UEI number. However, grant recipients must provide the UEI before they can receive any funding. Due to delays in processing of UEIs, applicants are encouraged to apply for the number early.

Find guidance on how to obtain a UEI number plus additional general resources that may be useful.

Item	Description	Link or Attachment
Getting Started with Registration and the Unique Entity ID	SAM.gov page with guided process for requesting a UEI and/or obtaining SAM registration	<a href="https://sam.gov/content/entity-registration">https://sam.gov/content/entity-registration</a>
Getting a Unique Entity ID	Youtube video generated by GSA.gov with guidance for obtaining a UEI.	<a href="https://www.youtube.com/watch?v=C87wSCYKTcE">https://www.youtube.com/watch?v=C87wSCYKTcE</a>
Entity Registration	Youtube video generated by GSA.gov with a walk through of the core data section of an entity registration in SAM.gov for non-federal entities.	<a href="https://www.youtube.com/watch?v=leZb5th5UAE">https://www.youtube.com/watch?v=leZb5th5UAE</a>

Applicants are encouraged to obtain their UEI number through registration in SAM (<https://www.sam.gov>).

<b>13. Location of Activities</b>	<i>(List County or Counties —See Annex B)</i>	
<b>14. Financial Support Requested</b> <b>Approximate (Budget)</b>	Estimated Value of Support Requested from FSNR (USD)	
	Applicant Co-Investment Amount (USD)	
	Total Project/Investment Cost (USD)	
<b>15. Period of Performance</b>	Total Number of Months	

*(Instructions have been provided in italics. They do not count toward page limits, and you may choose to delete them.*

- *Write your answers in the box next to the questions as you will not be able to change any of the other text.*
- *When you are answering questions, try to be as brief as possible and only provide information that is relevant to the question set. Please follow the guidelines on the amount of information that should be included.*
- *Answer all sections and if you do not have an answer for a question, please write 'None' or 'N/A'.*

**Section 2: Technical Approach (Maximum 5 pages)**

1. **Background:** *(Provide a brief background of your organization, current operations in terms of scale, business model and plans for growth and market constraint. Please provide an overview of the cooperative's current challenges, opportunities, and/or problems. Discuss political, social, economic, and/or environmental conditions that require change.*
2. **Project Objectives:** *(These objectives should be clearly formulated, oriented towards an impact, be specific, measurable, realistic, and have a time limit. They should demonstrate a clear link to the eligible activities outlined in this APS).*
3. **Project Description:** *(Provide the detailed description of your proposed interventions. Describe how the activities will lead towards strengthening agricultural practices and on-farm processing capacity, diversify livelihoods and increase incomes, and improve market access and year-round availability, accessibility, and utilization of nutritious food. Show how future activities and investments will continue and grow after USAID funding has ended. Demonstrate how this investment will develop market partnerships and linkages with other Agri-based business players).*
4. **Creativity, Innovation and Technology driven:** *(Provide the detailed description of how your proposed interventions provide for innovation, are creative and smart and adopt technology in their application). Show how you will build on previous investment if you have benefited from previous grants. [Mention the amount, period, and source of your grant]*
5. **Co-Investment:** *(Provide a short description of the planned co-investments contribution by your organization towards this activity. For example, list any equipment to be purchased, financial resources that will be accessed for the investment, supplies and materials). This is a section where you need to describe the contribution you will make to compliment the grant funds and meet the proposed objectives.*
6. **Environmental Impact:** *(Identify any potential environmental impacts due to proposed activities and include proposed mitigation measures. This may also include proactive approaches to deter environmental impact through uptake of improved technologies, climate-smart agricultural practices, and other approaches).*
7. **Inclusivity / Employment Opportunity:** *(Indicate who will benefit from successful implementation of grant activities or investments and why; describe how your program will contribute towards greater inclusion of women, and youth). Investments that expand employment opportunities for women and youth are desired and you should briefly state how many new jobs may be created as a result of the grant.*
8. **Past Performance:** *(Please provide a detailed summary of the cooperative or SMEs past performance in chronological order, including years of experience in the relevant sector).*

**Section 3: Required—Certification**

I, \_\_\_\_\_ (*authorized officer name*), the  
\_\_\_\_\_  
(*title, Chairman/President/Executive Director / Representative*) of \_\_\_\_\_ (*name of business / organization*)  
that is requesting assistance from the Feed the Future Liberia FSNR activity for the implementation of  
the proposed activity certify that all the information presented in this application in response to the APS  
is accurate and correct.

Signature: \_\_\_\_\_
