

Questions and Answers for ESP-RFP-2026-078

Service Provider to Conduct Targeted Survey on Public Perception of Nuclear Energy

1. **Term of Contract – Is the contract term really limited to just one month?**
We believe this is insufficient, especially if no existing questionnaire is available. Adequate time must be allotted for questionnaire development, training, data collection, data processing, and analysis, depending on the required deliverables. Revised to until March 31, 2026.
2. **Questionnaire – Is there a readily available questionnaire from DOE/ESP, or will we need to design one? This will significantly affect the project timeline. Additional time must also be considered for:**
 - **Formatting** – There is an existing format to be provided once contracted.
 - **Translation, given that the study areas (Bataan, Palawan, Masbate, and Camarines Norte) have different dominant local languages**
Translations are available, except for Camarines Norte
 - **CAPI programming** – CAPI programming is permissible.
3. **Deliverables – The deliverables are not explicitly stated in the request for proposal. Since these will directly affect the contract term, further clarification is necessary. See below –**

Period/ Date	Description of Work	Deliverable/s
Fifteen (15) days after contract signing	Preparatory Activities/Contract Preparation	● Signed Contract ● Finalization of Timetable of Activities
Thirty (30) days after contract signing	Submission, acceptance and approval of Inception Report	● Survey plan, detailed budget and work plan ● Draft survey instrument (questionnaire) ● Final version of the survey instrument

		• Inception Report
Within the Fourth (4) month of the contract	Submission and Presentation of Results from Identified Areas	• Raw datasets • Topline report • Draft analysis report
Not later than thirty (30) days prior to contract deadline	Submission and presentation to DOE of the Draft Final Report Acceptance/Approval of the Draft Final Report	
On or before the contract deadline	Submission, acceptance and approval of the Final Report Presentation of the Final Report	• Final datasets • Final report (statistical) and analytical • Presentation materials

4. **Method of Submission** – The cover page indicates that submissions should be sent via email with an attached document. However, Attachment B, Item 4: Forms, states that “Sellers must sign the single hardcopy submitted and send to the address listed on the cover page of this RFQ/RFP.” Please clarify whether a signed hardcopy must be physically submitted, or if a scanned copy submitted via email will suffice. Submission via email is acceptable and will suffice.

5. **Approved Budget for the Contract (ABC)** – Does the project have an approved budget for the contract (ABC)? This will guide us in preparing our cost proposal. Pricing is one of the criteria for evaluation. In this regard, we encourage you to submit your most competitive and best possible offer for this engagement, taking into consideration the project requirements, scope of work, and expected deliverables. Please ensure that your cost proposal reflects the best value for money.
