

RTI Press is the publishing arm of RTI International, which is headquartered in Research Triangle Park, NC, with office locations around the world. Information about RTI's history, corporate governance, senior management, corporate principles, corporate development, university collaborations, and clients and funding agencies can be found at rti.org.

RTI Press Management Team

Governance of the RTI Press rests with the RTI Press Executive Committee. The Editorial Board comprises both the Executive Committee and around 20 additional members from the different RTI business groups. All are leading researchers or scientists who provide subject matter expertise across the institute's many research disciplines. A subset of Editorial Board members provide expert review of statistical methods.

The RTI Press Senior Manager and Managing Editor work with the Editorial Board members to coordinate the peer review of manuscripts submitted to RTI Press and to oversee the production and dissemination of RTI Press publications.

Selection Process for the Executive Committee and Editorial Board

Executive Research Vice Presidents from each of RTI's business units recommend appointees to the RTI Press Executive Committee and Editorial Board.

The Executive Committee of the RTI Press Editorial Board has 10 members: representatives from each RTI business group and the RTI Press Director. The Executive Committee provides strategic direction to the RTI Press by setting and monitoring implementation of editorial policies. One member of the Executive Committee serves as the Editor-in-Chief and one as the Deputy Editor-in-Chief. These two roles are designated "Executive Editors." The Executive Editors both serve for single 3-year terms but can continue to serve as a member of the Executive Committee and/or Editorial Board. All Executive Committee members are members of the Editorial Board.

Editorial Board members act as Associate Editors, managing the peer review process for submitted manuscripts and making recommendations to the Executive Editors for publication

decisions based on the scientific quality of manuscripts.¹ The 2-year terms for Editorial Board members are staggered, with about half rotating off or agreeing to serve another term every 2 years.

Members of the Executive Committee and the Editorial Board are listed below. For additional information about the scientific expertise and publishing experience of these individuals, click on their names.

RTI Press Executive Committee Members

Jenny Wiley, Editor-in-Chief

RTI International, Research Triangle Park, NC
Pharmacology and toxicology; has served as a reviewer for various scientific journals, including the *Journal of Pharmacology and Experimental Therapeutics*, *Psychopharmacology*, *Behavioural Pharmacology*, and *Pharmacology Biochemistry and Behavior*; has served on the editorial board of *Experimental and Clinical Psychopharmacology*; has served as an ad hoc reviewer for various NIH study sections.

Ina Wallace, Deputy Editor-in-Chief

RTI International, Research Triangle Park, NC
Research and clinical experience concerning health and development of children and adolescents. Expertise in psychological assessment of children from diverse ethnic and linguistic backgrounds, evaluation of preventive interventions targeting children and families, and methods for conducting systematic literature reviews. Has published on outcomes of children at risk for developmental disorders due to middle ear disease, hearing loss, and prematurity; reviews for journals including *International Journal of Pediatric Otorhinolaryngology*, *Social Development*, and *Pediatrics*.

Derick Brinkerhoff (Emeritus)

RTI International, Washington, DC
International public management; co-editor of the journal *Public Administration and Development*; serves on the editorial board of *International Review of Administrative Sciences*.

¹ For specific decision criteria see RTI Press [Submission Guidelines](#).

Kathleen Lohr (Emerita)

RTI International, Research Triangle Park, NC
Health policy, health services research; was associate editor of *Quality of Life Research*; founding Editor-in-Chief of RTI Press (2007–2011).

Brian Southwell

RTI International, Research Triangle Park, NC
Health and science communication; author/editor of three books and more than 100 journal articles and chapters; former editor for *Health Communication* and editorial board member of numerous other journals; faculty member at Duke University and University of North Carolina at Chapel Hill; host of public radio show, *The Measure of Everyday Life*.

Dorota Temple

RTI International, Research Triangle Park, NC
Semiconductor sensors, electronics, applied physics; Editor-in-Chief of RTI Press, 2014 to 2016; had overall responsibility for the American Vacuum Society (AVS) publications, including the *Journal of Vacuum Science & Technology* and *Surface Science Spectra*, from 1998 to 2000; serves as a reviewer for the *Journal of the Electrochemical Society*, the *Journal of Vacuum Science & Technology*, *Organic Electronics*, *Thin Solid Films*, *Applied Physics Letters*, and others.

Denise Tyler

RTI International, Waltham, MA
Aging policy, long-term care, post-acute care, and other aspects of public health among a geriatric population. Conducts qualitative and quantitative research focused on improving the delivery and quality of health care. Fellow of the Gerontological Society of America and Academy Health, and serves on the editorial boards of *Health Services Research* and the *Journal of Aging & Social Policy*.

Brad Walters

RTI International, Research Triangle Park, NC
Expertise in research commercialization, preclinical and clinical drug development, design and conduct of clinical trials; Editorial Board member of *Neurosurgery://OnCall* from 1996 to 2001; wrote “Caught in the Web,” a monthly internet column for the North Carolina Medical Society, 1996 to 1998. RTI’s Chief Medical Officer.

RTI Press Staff

RTI Press is led by Senior Manager [Anna Wetterberg](#). A senior social scientist in RTI's International Development Group (IDG), Dr. Wetterberg has served on RTI Press's Editorial Board since 2011 and on the Executive Committee since 2015. Dr. Wetterberg has been an author, an associate editor, or a reviewer for numerous RTI Press publications. She also has more than 20 years of experience working on research and project implementation in international development, with a focus on governance and policy analysis. **Anne Gering** serves as Managing Editor; she has more than 15 years of publishing experience and has served as a managing and production editor at several university presses. **Joanne Studders** is the lead editor; she has more than 25 years of editing and publications development experience for research institutions and has served as a copyeditor and production editor for RTI Press since it was founded in 2008. **Alisa Clifford** is the production manager and graphic design lead; she has more than 15 years of experience in graphic design, project management, production coordination, and brand management, primarily

at research institutions including RTI International and the University of North Carolina at Chapel Hill. **Sonja Douglas** is the RTI Press senior designer. She has more than 30 years of experience in report, book, and magazine design and publishing. The RTI Press staff are located at RTI headquarters in North Carolina. Contact them at rtipress@rti.org.

Publication Types

In addition to conference proceedings and peer-reviewed books, RTI Press publishes several other peer-reviewed publications:

Research Reports present, in summary form, RTI research findings and technical expertise or lessons. A subset of this category, **Occasional Papers** examine policy issues, drawing directly or indirectly on RTI research, technology development, technical assistance, or related work. Occasional Papers may also examine research, engineering, or other methods issues that might not be relevant for **Methods Reports**, or they can be scholarly essays on topics relevant to RTI areas of research or technical focus.

Methods Reports document and describe advances in research tools, applications, and methods. They include the full range of qualitative and quantitative methods, statistics, epidemiology, economics, survey, data collection, laboratory, animal testing, engineering, and similar disciplines and techniques used in RTI's work.

Research Briefs and **Policy Briefs** target well-educated generalists rather than technical experts. Topics can draw directly or indirectly on RTI research, technology development, technical assistance, or related work. These publications are short, 4- to 8-page documents, with clear and simple language. Often they include bulleted boxes that highlight the main issues/topics/questions of the brief and the main conclusions, policy implications, or future research questions. **Policy Briefs** address a current policy issue, outlining the rationale for available policy alternatives or courses of action, and typically include a concise summary of published work regarding an issue. **Research Briefs** address a topic of current scientific interest, succinctly summarize the state of the knowledge regarding a topic, and analyze future research needs and opportunities.

Note: RTI Press Research Reports and Methods Reports generally follow the structural guidelines described in our [Submission Guidelines](#), found under Resources for Authors.
