

As RTI Press strives to reach a general audience, authors are invited to submit manuscripts that are clearly and concisely written without jargon or overly technical language. All submitted manuscripts should be original and must not be concurrently under review elsewhere. Authors can be from outside RTI, but all manuscripts must include at least one RTI author or editor.

Manuscript Parameters

The RTI Press website provides general guidance on RTI Press policies. Authors' manuscripts must comply to submission requirements (linked in table below) to be considered for peer review by RTI Press. Completed manuscripts should be submitted through [Scholastica](#).^{*} Prior to peer review, all submissions will be reviewed for fulfillment of editorial

standards and style guidelines. Submissions that do not meet standards will be returned to author(s).

Submission Format

- Provide text files in Microsoft Word with at least 1.5-line spacing.
- Tables and figures: For the initial submission, embed figures and tables in the Word file near their first mention in text.
- All mathematical text that requires an equation editor should be generated in MathType. Do not insert equations as graphics.
- For more guidance on formatting, see the [RTI Press Style Guide](#).

Statement of Significance

During submission in Scholastica, you will be asked to provide a short (less than 250 words) description of your manuscript that answers the following questions:

- Why is your paper important and significant to your field? (Describe the field.)
- What audience are you aiming to reach by submitting to the RTI Press?
- What is the important takeaway from your paper?

Compliance

Before submitting, be sure to

- Get any management approvals required by your division.
- Get client/funder approval, if needed.
- Arrange for your manuscript to be edited to comply with RTI Press style and requirements for the relevant publication type (refer to the preparation checklists in the table above).
- Identify funder in the acknowledgments and include any specific wording if required by contract or other arrangement.

- Ensure compliance with any required ethical/professional standards (such as human subjects protections, informed consent, animal rights).
- Appropriately acknowledge the source of all previously published materials and obtain any needed permissions for reuse.
- Ensure any suggested reviewers are external to RTI and do not have a conflict of interest.
